WORKPAPER UPDATES AND ROLL FORWARD NOTES

General Roll Forward Note:

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2022 Knowledge-Based Audits of Real Estate Entities** have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS and to take into account the latest literature, standards, and guidance, including:

- AICPA Statement on Auditing Standards (SAS) No. 134, *Auditor Reporting and Amendments, Including Amendments Addressing Disclosures in the Audit of Financial Statements*;
- SAS No. 135, *Omnibus Statement on Auditing Standards – 2019*;
- SAS No. 137, *The Auditor’s Responsibilities Relating to Other Information Included in Annual Reports*;
- SAS No. 138, *Amendments to the Description of the Concept of Materiality*;
- SAS No. 139, *Amendments to AU-C Sections 800, 805, and 810 to Incorporate Auditor Reporting Changes From SAS No. 134*;
- SAS No. 140, *Amendments to AU-C Sections 725, 730, 930, 935, and 940 to Incorporate Auditor Reporting Changes From SAS Nos. 134 and 137*;
- SAS No. 141, *Amendment to the Effective Dates of SAS Nos. 134–140*;
- SAS No. 142, *Audit Evidence* (effective for periods ending on or after December 15, 2022);
- AICPA Ethics Interpretation, Staff Augmentation Arrangements (ET sec. 1.275.007); and
- FASB Accounting Standards Codification through Accounting Standards Update No. 2022-04

The following standards have not been fully incorporated but are discussed in practice alerts:

- SAS No. 143, *Auditing Accounting Estimates and Related Disclosures* (effective for periods ending on or after December 15, 2023);
- SAS No. 144, *Amendments to AU-C Sections 501, 540, and 620 Related to the Use of Specialists and the Use of Pricing Information Obtained from External Information Sources* (effective for periods ending on or after December 15, 2023); and
- SAS No. 145, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement* (effective for periods ending on or after December 15, 2023).

Note: The amendments in SAS No. 143 predominantly affect AU-C Section 540. Until the effective date of December 15, 2023 the amendments to other AU-C sections will be located in the Appendix C of AU-C Section 540.

The 2022 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification™.

Earnings Per Share (ASC 260)		
Removed	<p><i>Note:</i> The presentation and disclosure requirements in item 12 below are prescribed by ASU No. 2017-11, Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. The amendments in Part I of this ASU are effective on a retrospective basis for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. For all other entities, the amendments in Part I of this ASU are effective on a retrospective basis for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted for all entities as of the beginning of an interim period for which financial statements (interim or annual) have not been issued or have not been made available for issuance. The amendments in Part II of this ASU do not require any transition guidance because those amendments do not have an accounting effect. (ASC 260-10-65-4)</p>	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
Removed	An entity should apply the amendments in Part I of ASU No. 2017-11 either:	
Removed	Retrospectively to outstanding financial instruments with a down round feature by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the first fiscal year and interim period(s) in which ASU No. 2017-11 is effective. The cumulative effect of the change should be recognized as an adjustment of the opening balance of retained earnings in the fiscal year and interim period of adoption; or	
Removed	Retrospectively to outstanding financial instruments with a down round feature for each prior reporting period presented in accordance with the guidance on accounting changes in ASC paragraphs 250-10-45-5 through 45-10	
Removed	All entities that have not yet adopted ASU No. 2017-11 may early adopt ASU No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity , related to recognition and measurement for any convertible security that includes a down round feature in financial statements for fiscal years or interim periods that have not yet been issued or made available for issuance. This early adoption of ASU No. 2020-06 is permitted for fiscal years beginning after December 15, 2019.	
Removed	Have the following transitional disclosures related to the adoption of ASU No. 2017-11 been made in both the interim and annual period of adoption (ASC 260-10-65-4):	
Removed	The nature of the change in accounting principle?	
Removed	The method of applying the change?	
Removed	The cumulative effect of the change on retained earnings in the balance sheet as of the beginning of the earliest period presented in which ASU No. 2017-11 is effective?	
Removed	If ASU No. 2017-11 is applied retrospectively in accordance with option 2. above, have the following disclosures been made:	
Removed	A description of the prior-period information that has been retrospectively adjusted, if any?	
Removed	The effect of the change on income from continuing operations, net income (or other appropriate captions of changes in the applicable net assets or performance indicator), any other affected financial statement line item, and any affected per-share amounts for the current period and any prior periods retrospectively adjusted?	
Receivables (ASC 310)		
New	<i>Note:</i> The presentation and disclosure requirements in items 22 and 23 below have been superseded by ASU No. 2022-02, Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures . For entities that have <i>not</i> yet adopted ASC Topic 326, the amendments in ASU No. 2022-02 are effective when the entity first adopts ASC Topic	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
	326. An entity that has adopted ASC Topic 326 should apply ASU No. 2022-02 for financial statements issued for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Thereafter, the presentation and disclosure requirements in items 24 through 26 below should be followed. (ASC 326-10-65-5)	
New	Early adoption, including adoption in any interim period as of the beginning of the fiscal year that includes that interim period, is permitted provided that an entity has adopted ASC Topic 326 in financial statements of fiscal years or interim periods that have not been issued or made available for issuance. An entity may elect to early adopt ASU No. 2022-02 individually for vintage disclosures and troubled debt restructurings by creditors. For example, an entity may early adopt ASU No. 2022-02 for the amendments on vintage disclosures, and an entity may separately elect not to early adopt ASU No. 2022-02 for the amendments on troubled debt restructurings by creditors.	
New	An entity should apply ASU No. 2022-02 prospectively from the beginning of the fiscal year of adoption, except as discussed in item 2 below:	
New	Disclosures required by ASU No. 2022-02 in ASC paragraphs 310-10-50-38 through 50-44 and 326-20-50-6 should be provided for modifications and gross writeoffs made starting in the period of adoption. Information about modifications in periods before adoption need not be provided. That is, in disclosures that require information about modifications made in the previous 12 months, modifications made before the date of the adoption of ASU No. 2022-02 do not need to be included.	
New	For the elimination of recognition and measurement guidance on troubled debt restructurings by creditors in ASC Subtopic 310-40, an entity may elect to apply a modified retrospective transition by means of a cumulative-effect adjustment to the opening retained earnings as of the beginning of the fiscal year of adoption for any change in the allowance for credit losses that had been recorded for loans modified or reasonably expected to be modified in a troubled debt restructuring before the adoption of ASU No. 2022-02. If an entity elects a prospective approach, the guidance should be applied to modifications occurring after the date of adoption of ASU No. 2022-02.	
New	<p>Has the amount of commitments, if any, to lend additional funds to debtors experiencing financial difficulty for which the creditor has modified the terms of the receivables in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay, or a term extension in the current reporting period been disclosed, either in the body of the financial statements or in the accompanying notes, as of the date of each balance sheet presented? (ASC 310-10-50-36)</p> <p><i>Note:</i> For purposes of this disclosure, covenant waivers and modifications of contingent acceleration clauses would not be considered term extensions.</p>	
New	For each period for which an income statement is presented, has the following information been disclosed related to modifications of receivables that are in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay, or a term extension (or	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
	combination thereof) made to debtors experiencing financial difficulty during the reporting period (ASC 310-10-50-42):	
New	<i>Note:</i> The disclosures in items 25 and 26 below should be provided for modifications of receivables to borrowers experiencing financial difficulty in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay, or a term extension made within the scope of ASC Topic 310 . For purposes of those disclosures, covenant waivers and modifications of contingent acceleration clauses would not be considered term extensions. These disclosures do not apply to the following financing receivables: (a) receivables measured at fair value with changes in fair value reported in earnings; (b) receivables measured at lower of amortized cost basis or fair value; or (c) trade accounts receivable, except for credit card receivables, that have a contractual maturity of one year or less, and that arose from the sale of goods or services. (ASC 310-10-50-39 and 50-40)	
	In evaluating whether the debtor is experiencing financial difficulties for the purpose of the disclosure requirements in items 25 and 26 below, a creditor should consider the indicators prescribed in ASC paragraph 310-10-50-45 .	
New	These disclosures are applicable regardless of whether a modification of a receivable to a debtor experiencing financial difficulty results in a new loan in accordance with ASC paragraphs 310-20-35-9 through 35-11 . As a practical expedient, an entity may exclude the accrued interest receivable balance that is included in the amortized cost basis of financing receivables for the purposes of the disclosure requirements in ASC Subtopic 326-20. If an entity has applied that practical expedient, an entity may do the same for the disclosures in items 25 and 26 below and should disclose the total amount of accrued interest excluded from the disclosed amortized cost basis. (ASC 310-10-50-41)	
New	In addition to the disclosures in items 25 and 26 below, an entity should consider providing information that helps financial statement users understand significant changes in the type or magnitude of modifications, including those modifications that, for example, were caused by a major credit event, even if the modifications otherwise would not require the disclosures in items 25 and 26 below. (ASC 310-10-50-38)	
New	In the case of a restructuring that results in only a delay in payment that is insignificant, an entity is not required to include the modification made to receivables for debtors experiencing financial difficulty in the disclosure requirements in item 24 above or items 25 and 26 below. Also, if the debt has been previously restructured, an entity should consider the cumulative effect of past restructurings made within the 12-month period before the current restructuring when determining whether a delay in payment resulting from the current restructuring is insignificant. See ASC 310-10-50-46 through 50-48 for additional guidance, including factors that may indicate that a restructuring results in a delay in payment that is insignificant.	
New	Receivables may be modified in more than one manner. An entity that modifies the same receivable in more than one manner should provide disclosures sufficient for users to understand the different types of combinations of modifications provided to borrowers. For example, a receivable may be modified to provide both principal forgiveness and an interest rate reduction. In that case, an entity should disclose the period-end amortized cost basis of that receivable in a separate category that	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
	reflects that a combination of modification types has been granted. If another receivable was modified to provide both an interest rate reduction and a term extension, the period-end amortized cost basis of that receivable should be presented in a different category. Multiple separate combination categories may be necessary if significant. The same receivable's period-end amortized cost basis should not be presented in multiple categories. (ASC 310-10-50-43)	
New	By class of financing receivable, qualitative and quantitative information about:	
New	The types of modifications utilized by an entity, including the total period-end amortized cost basis of the modified receivables and the percentage of modifications of receivables made to debtors experiencing financial difficulty relative to the total period-end amortized cost basis of receivables in the class of financing receivable?	
New	The financial effect of the modification by type of modification, which should provide information about the changes to the contractual terms as a result of the modification and should include the incremental effect of principal forgiveness on the amortized cost basis of the modified receivables, as applicable, or the reduction in weighted-average interest rates (versus a range) for interest rate reductions?	
New	Receivable performance in the 12 months after a modification of a receivable made to a debtor experiencing financial difficulty?	
New	By portfolio segment, qualitative information about how those modifications and the debtors' subsequent performance are factored into determining the allowance for credit losses?	
New	For each period for which an income statements is presented, has the following information been disclosed about financing receivables that had a payment default during the period and had been modified in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay, or a term extension (or a combination thereof) within the previous 12 months preceding the payment default when the debtor was experiencing financial difficulty at the time of the modification (ASC 310-10-50-44):	
New	By class of financing receivable, qualitative and quantitative information about those defaulted financing receivables, including the following:	
New	The amount of financing receivables that defaulted, including the period-end amortized cost basis for financing receivables that defaulted?	
New	By portfolio segment, qualitative information about how those defaults are factored into determining the allowance for credit losses?	
Troubled Debt Restructurings by Creditors		
Removed	Has disclosure been made of the carrying amount of foreclosed residential real estate properties held at the reporting date as a result of obtaining physical possession in accordance with ASC 310-40-40-6 and ASC 310-40-55-10A ? (ASC 310-10-50-11)	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
Removed	Has disclosure been made of the recorded investment of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process according to local requirements of the applicable jurisdiction? (ASC 310-10-50-35)	
Measured at Amortized Cost		
Removed	<i>Note:</i> When a loan is restructured in a troubled debt restructuring into two or more loan agreements, the restructured loans should be considered separately when assessing the applicability of the disclosures in ASC Section 326-20-50 in years after the restructuring because they are legally distinct from the original loan. (ASC 310-40-50-5)	
Updated	<p><i>Note:</i> When disclosing credit quality indicators of financing receivables and net investment in leases (except for reinsurance recoverables and funded or unfunded amounts of line-of-credit arrangements, such as credit cards), the amortized cost basis should be presented by a public business entity within each credit quality indicator by year of origination (i.e., vintage year). For purchased financing receivables and net investment in leases, the initial date of issuance should be used to determine the year of origination, not the date of acquisition. For origination years before the fifth annual period, the amortized cost basis of financing receivables and net investments in leases may be presented by a public business entity in the aggregate. For interim period disclosures, the current year-to-date originations in the current reporting period are considered to be the current-period originations. A public business entity should present the gross writeoffs recorded in the current period, on a current year-to-date basis, for financing receivables and net investments in leases by origination year. For origination years before the fifth annual period, a public business entity may present the gross writeoffs in the current period for financing receivables and net investments in leases in the aggregate. The requirement to present the amortized cost basis within each credit quality indicator by year of origination is not required for an entity that is not a public business entity. (ASC 326-20-50-6)</p> <p>For the purpose of the disclosure requirement in the previous paragraph, presentation should be made by a public business entity of the amortized cost basis of line-of-credit arrangements that are converted to term loans in a separate column. Disclosure should be made in each reporting period by a public business entity, by class of financing receivable, of the amount of line-of-credit arrangements that are converted to term loans in each reporting period and the total of these financing receivables that were written off in the current reporting period in accordance with ASC paragraph 326-20-50-6. Updated	<i>Note:</i> Except as provided for in the previous paragraph, the guidance in ASC paragraphs 310-20-35-9 through 35-11 should be used by a public business entity when determining whether a modification, extension, or renewal of a financing receivable should be presented as a current-period origination. The guidance in ASC paragraphs 842-10-25-8 through 25-9 should be used by a public business entity when determining whether a lease modification should be presented as a current period origination. Internal-Use Software		
Removed	<p>Note: The presentation and disclosure requirements in items 1 through 5 below are prescribed by ASU No. 2018-15, <i>Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract</i>. ASU No. 2018-15 is effective for public business entities for annual periods, including interim periods within those annual periods, beginning after December 15, 2019. For all other entities, the requirements are effective for annual periods beginning after December 15, 2020, and interim periods in annual periods beginning after December 15, 2021. (ASC 350-40-65-3).</p>

Removed	<p>The determinations of whether a legal entity is a variable interest entity (VIE) and which reporting entity, if any, should consolidate the legal entity (i.e., whether the reporting entity is the primary beneficiary of the VIE) should be made as of the date the reporting entity became involved with the legal entity or, if events have occurred requiring reconsideration of whether the legal entity is a VIE and which reporting entity, if any, should consolidate the legal entity, as of the most recent date at which ASU No. 2018-17 would have required consideration.</p> <p>If, at transition, it is not practicable for a reporting entity to obtain the information necessary to make the determinations in item (e) above as of the date the reporting entity became involved with a legal entity or at the most recent reconsideration date, the reporting entity should make the determinations as of the date on which ASU No. 2018-17 is first applied.</p> <p>If the determinations of whether a legal entity is a VIE and whether a reporting entity is the primary beneficiary of a VIE are made in accordance with item (f) above, then the consolidating entity should measure the assets, liabilities, and noncontrolling interests of the legal entity at fair value as of the date on which ASU No. 2018-17 is first applied. However, if the VIE’s activities are primarily related to securitizations or other forms of asset-backed financings and the VIE’s assets can be used only to settle the VIE’s obligations, then the VIE’s assets and liabilities may be measured at their unpaid principal balances (as an alternative to a fair value measurement) at the date ASU No. 2018-17 is first applied. This measurement alternative does not obviate the need for the primary beneficiary to recognize any accrued interest, an allowance for credit losses, or other-than-temporary impairment, as appropriate. Other assets, liabilities, or noncontrolling interests, if any, that do not have an unpaid principal balance, and any items that are required to be carried at fair value under other applicable ASC Topics, should be measured at fair value.</p>

	<p>For a fair value hedge of interest rate risk existing as of the date of adoption, an entity may modify the measurement methodology for a hedged item in accordance with either ASC paragraph 815-20-25-6B or ASC paragraph 815-25-35-13 without dedesignation of the hedging relationship. The cumulative basis adjustment carried forward should be adjusted to an amount that reflects what the cumulative basis adjustment would have been at the initial application date had the modified measurement methodology been used in all past periods in which the hedging relationship was outstanding. When making this election, the benchmark rate component of the contractual coupon cash flows should be determined as of the hedging relationship’s original inception date. For an entity that has not yet adopted the amendments in ASU No. 2016-13, any unrealized gain or loss on the reclassified debt security at the date of reclassification should be recorded in accumulated other comprehensive income. For an entity that has adopted ASU No. 2016-13, for each reclassified debt security it should:</p> <ul style="list-style-type: none"> i. Reverse in retained earnings any allowance for credit losses previously recorded on the held-to-maturity debt security at the date of reclassification. ii. Reclassify the debt security to the available-for-sale category at its amortized cost basis (which is reduced by any previous writeoffs but excludes any allowance for credit losses). iii. Determine whether an allowance for credit losses is necessary by following the guidance in ASC Subtopic 326-30. If so, that allowance should be recorded in retained earnings at the date of reclassification. iv. Report in accumulated other comprehensive income any unrealized gain or loss on the debt security at the date of reclassification, excluding the amount recorded in the allowance for credit losses in accordance with (iii). 	
New	<p>2. Include those reclassified debt securities in one or more closed portfolios that are designated in a portfolio layer method hedge no later than 30 days after the date of adoption of ASU No. 2022-01. Neither a minimum amount of the closed portfolio nor a minimum hedge period must be designated to meet this requirement.</p> <p>3. An entity should provide the disclosures in accordance with ASC paragraph 320-10-50-10 for reclassified debt securities in the period of reclassification.</p> <p>4. That reclassification, in and of itself, would not call into question the entity's assertion at the most recent reporting date that it had the intent and ability to hold to maturity those debt securities that continue to be classified as held to maturity.</p>	
New	<p>Has the following been disclosed separately for each line item in the balance sheet that includes hedged assets and liabilities for fair value hedges that involve hedging relationships designated under the portfolio layer method in accordance with ASC paragraph 815-20-25-12A:</p>

RELATED, FOUNDATIONS AND ASSOCIATION WORKPAPERS FOR THIS TITLE

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles.

Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related.

Making this association allows Knowledge Coach information to flow properly between workpapers.
