

2023 HEALTHCARE ENTITIES OVERVIEW FOR KNOWLEDGE COACH USERS

PURPOSE

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

WORKPAPER UPDATES AND ROLL FORWARD NOTES

General Roll Forward Note:

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2023 Knowledge-Based Audits of HealthCare Entities** have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS and to take into account the latest literature, standards, and guidance, including:

- SAS No. 142, Audit Evidence (effective for periods ending on or after December 15, 2022);
- SAS No. 143, Auditing Accounting Estimates and Related Disclosures (effective for periods ending on or after December 15, 2023);
- SAS No. 144, Amendments to AU-C Sections 501, 540, and 620 Related to the Use of Specialists and the Use of Pricing Information Obtained From External Information Sources (effective for periods ending on or after December 15, 2023);
- SAS No. 145, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (effective for periods ending on or after December 15, 2023);
- SAS No. 147, *Inquiries of the Predecessor Auditor Regarding Fraud and Noncompliance With Laws and Regulations*. (effective for audits of financial statements for periods beginning on or after June 30, 2023);
- SAS No. 148, *Amendment to AU-C Section 935*. (effective for compliance audits for fiscal periods ending on or after December 15, 2023, consistent with the effective date of SAS No. 145); and
- AICPA Ethics Interpretation, Information System Services (ET sec.1.295.145).

Auditors who have not implemented the provisions of these standards should use a previous edition of this toolset.

The following standards **have not** been fully incorporated but are discussed in practice alerts:

- Statement on Quality Management Standards (SQMS) No. 1, *A Firm's System of Quality Management* (effective December 15, 2025);
- SQMS No. 2, *Engagement Quality Reviews* (effective December 15, 2025);
- Statement on Auditing Standards (SAS) No. 146, *Quality Management for an Engagement Conducted in Accordance with Generally Accepted Auditing Standards* (effective December 15, 2025).; and
- Statement on Auditing Standards (SAS) No. 149, *Special Considerations—Audits of Group Financial Statements (Including the Work of Component Auditors and Audits of Referred-to Auditors)*.

The 2023 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification™.

The 2023 edition of *Knowledge-Based Audits of HealthCare Entities* includes the following updates:

Note: Accounting Estimates is no longer an audit area. The auditor will identify which audit areas have “Significant Accounting Estimates” in KBA-400 Scoping and Mapping Table. If the user identifies any of the audit areas with accounting estimates these should be added to the risk pane These accounting estimate risk(s) will flow to Table 3 in KBA-400 and to KBA-502 where they will need an individual risk assessment performed at the assertion level. These “Significant Accounting Estimates” will also flow to KBA-105 and the auditor should use AUD-820 for each individual accounting estimate. AUD-820 Accounting Estimates will no longer act like a regular Audit Program, there will be no program step library as the majority of procedures are relevant to each accounting estimate unless hidden based on the Tailoring Questions provided.

Throughout the toolset, language used has been updated for the significant changes in terms and definitions resulting from SASs No. 142-145 including:

- “Risk Assessment Procedures: Obtaining an Understanding of the Entity and Its Environment” replaced with “Risk Assessment Procedures: Obtaining an Understanding of the Entity and Its Environment, the Applicable Financial Reporting Framework, and the Entity’s System of Internal Control”
- “Risk Assessment Procedures: Evaluating the Design of Internal Controls” replaced with “Risk Assessment Procedures: Evaluating the Design of Controls”
- “Performing Audit Procedures: Tests of the Operating Effectiveness of Internal Controls” replaced with “Performing Audit Procedures: Tests of the Operating Effectiveness of Controls”
- “Work of internal auditors” replaced with “Work of the internal audit function”.
- “Audit team members” replaced with “engagement team members”
- “Internal Controls” replaced with *either* “controls” or “system of internal control” as applicable
- “Activity-Level Controls” replaced with “Transaction Controls”
- “Supporting documentation” replaced with “related documentation”
- “Monitoring” replaced with “The entity’s process for monitoring the system of internal control”
- “Relevance of audit evidence” replaced with “sufficiency and appropriateness of audit evidence”
- “Evidence of bias” replaced with “indications of possible management bias”

AUD-802B Audit Program: Derivative Instruments and Hedging Activities					

Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward Considerations
Modified	<p>Step <i>Derivatives and Hedging – Management's Estimate</i> Modified to read as follows:</p> <p>In addition to the appropriate procedures performed as presented at <i>AUD-820 Audit Program: Accounting Estimates</i>, we evaluated whether the accounting estimates and related disclosures are reasonable in the context of the applicable financial reporting framework, and management's determination of the fair value of all derivatives, including those that are freestanding, hedging instruments, and embedded features. If applicable, if management has not been able to measure the embedded derivative separately from its host contract, we have evaluated management's estimate of the entire hybrid (combined) contract at fair value.</p>	Procedures	New or Revised Guidance	SAS-143	Step will reset on roll forward

Additionally, when using external pricing services to audit client fair value accounting estimates, consideration should be given to ensure the same pricing services used by the client are not also used by the auditor and the use of multiple pricing services is recommended.</p> <p>Substep f. now 9. For fair value accounting estimates obtained from external information sources, we considered whether it is necessary to use the work of a specialist. If it is determined that using the work of a specialist is necessary, we performed the necessary procedures at AUD-603 Audit Program: Using the Work of an Auditor's Specialist.</p> <p>Substep g. now 10. If a derivative instrument is valued by the entity using a valuation technique (e.g., discounted cash flows, option-pricing models), we obtained evidence regarding management's assertions about fair value by performing the appropriate procedures at AUD-816 Audit Program: Fair Value Measurements and Disclosures.</p> <p>Substep h. now 11. If collateral (e.g., negotiable securities, construction, and property) is an important factor in evaluating the fair value of the derivative, we obtained evidence regarding the existence, fair value, and transferability of such collateral as well as the investor's rights to the collateral.</p> <p>Substep i. now 12. We evaluated whether there were material declines in fair values subsequent to the balance sheet date.</p>				
Modified	Step <i>Fraud Awareness</i> modified to read as follows:	Procedures	New or Revised Guidance	SAS-144

RELATED, FOUNDATIONS AND ASSOCIATION WORKPAPERS FOR THIS TITLE

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles. Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related. Making this association allows Knowledge Coach information to flow properly between workpapers.
