

# 2024 NOT-FOR-PROFIT ENTITIES OVERVIEW FOR KNOWLEDGE COACH USERS

## PURPOSE

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

## WORKPAPER UPDATES AND ROLL FORWARD NOTES

### General Roll Forward Note:

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2024 Knowledge-Based Audits of Not-for-Profit Entities** have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS and to take into account the latest literature, standards, and guidance, including:

- SAS No. 142, Audit Evidence (effective for periods ending on or after December 15, 2022);
- SAS No. 143, Auditing Accounting Estimates and Related Disclosures (effective for periods ending on or after December 15, 2023);
- SAS No. 144, Amendments to AU-C Sections 501, 540, and 620 Related to the Use of Specialists and the Use of Pricing Information Obtained From External Information Sources (effective for periods ending on or after December 15, 2023);
- SAS No. 145, Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement (effective for periods ending on or after December 15, 2023);
- SAS No. 147, *Inquiries of the Predecessor Auditor Regarding Fraud and Noncompliance With Laws and Regulations*. (effective for audits of financial statements for periods beginning on or after June 30, 2023);
- SAS No. 148, *Amendment to AU-C Section 935*. (effective for compliance audits for fiscal periods ending on or after December 15, 2023, consistent with the effective date of SAS No. 145); and
- AICPA Ethics Interpretation, Information System Services (ET sec.1.295.145).

The following standards **have not** been fully incorporated but are discussed in practice alerts:

- SAS No. 146, *Quality Management for an Engagement Conducted in Accordance with Generally Accepted Auditing Standards* (effective December 15, 2025);
- SQMS No. 1, *A Firm's System of Quality Management* (effective December 15, 2025); and
- SQMS No. 2, *Engagement Quality Reviews* (effective December 15, 2025).

The 2024 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification™.

The 2024 edition of *Knowledge-Based Audits of Not-for-Profit Entities* includes the following updates:

**Note: Accounting Estimates is no longer an audit area. The auditor will identify which audit areas have “Significant Accounting Estimates” in KBA-400 Scoping and Mapping Table. If the user identifies any of the audit areas with accounting estimates these should be added to the risk pane These accounting estimate risk(s) will flow**

to Table 3 in KBA-400 and to KBA-502 where they will need an individual risk assessment performed. These “Significant Accounting Estimates” will also flow to KBA-105 and the auditor should use AUD-820 for each individual accounting estimate. AUD-820 Accounting Estimates will no longer act like a regular Audit Program, there will be no library as the majority of procedures are relevant to each accounting estimate unless hidden based on the Tailoring Questions provided.

Throughout the toolset, language used has been updated for the significant changes in terms and definitions resulting from SASs No. 142-145 including:

- “Risk Assessment Procedures: Obtaining an Understanding of the Entity and Its Environment” replaced with “Risk Assessment Procedures: Obtaining an Understanding of the Entity and Its Environment, the Applicable Financial Reporting Framework, and the Entity’s System of Internal Control”
- “Risk Assessment Procedures: Evaluating the Design of Internal Controls” replaced with “Risk Assessment Procedures: Evaluating the Design of Controls”
- “Performing Audit Procedures: Tests of the Operating Effectiveness of Internal Controls” replaced with “Performing Audit Procedures: Tests of the Operating Effectiveness of Controls”
- “Work of internal auditors” replaced with “Work of the internal audit function”.
- “Audit team members” replaced with “engagement team members”
- “Internal Controls” replaced with *either* “controls” or “system of internal control” as applicable
- “Activity-Level Controls” replaced with “Transaction Controls”
- “Supporting documentation” replaced with “related documentation”
- “Monitoring” replaced with “The entity’s process for monitoring the system of internal control”
- “Relevance of audit evidence” replaced with “sufficiency and appropriateness of audit evidence”
- “Evidence of bias” replaced with “indications of possible management bias”

<b>KBA-409 Understanding Controls Maintained by a Service Organization</b>					
Modify	Step 5 Modified to read: 1. We obtained sufficient information to provide an appropriate basis for the identification and assessment of the risks of material misstatement by obtaining a sufficient understanding of the entity’s system of internal control to identify controls in the control activities component at the user entity that relate to the services provided by the service organization, including those that are applied to the transactions processed by the service organization. Further, we evaluated the design of the identified controls and determined whether they have been implemented. We gathered sufficient information to: <ul style="list-style-type: none"> <li>Understand the nature of the services provided by the service organization and the significance of those services to the entity, including the effect thereof on the entity’s system of internal control.</li> <li>Understand the user entity controls that relate to the services provided by the service organization, including those that are</li> </ul>	Procedures	New or Revised Guidance	SAS-145

	<p>Specific risks include significant risks of material misstatement, including fraud risks. Because significant unusual transactions can affect the risks of material misstatement due to error or fraud, substantive procedures that take into account the types of potential misstatements that could result from significant unusual transactions may be necessary.</p> <p>If one or more of the procedures in the “Substantive Audit Procedures” section is sufficient to address the relevant assertion(s) of a specific risk or a significant accounting estimate, only the appropriate audit steps need be referenced. If procedures listed in the “Substantive Audit Procedures” section do not sufficiently address the relevant assertion(s) of a specific risk or a significant accounting estimate, the auditor must design and document a tailored audit procedure(s) to specifically address the relevant assertion(s) of the specific risk(s) or significant accounting estimate(s). When the auditor has determined that a significant risk, including a fraud risk, exists, the auditor should evaluate the design of the entity's controls that are intended to address fraud risks and other significant risks and determine whether those controls have been implemented, if the auditor has not already done so when obtaining an understanding of the system of internal control.</p> <p>For significant accounting estimates and risks of material misstatement identified as significant risks on <b>KBA-502</b>, the auditor’s planned response should include more than substantive analytical procedures alone. Either tests of controls or tests of details must be performed in addition to the substantive analytical procedures.</p>

- SAS No. 147, *Inquiries of the Predecessor Auditor Regarding Fraud and Noncompliance With Laws and Regulations*. (effective for audits of financial statements for periods beginning on or after June 30, 2023);

- SAS No. 148, *Amendment to AU-C Section 935*. (effective for compliance audits for fiscal periods ending on or after December 15, 2023, consistent with the effective date of SAS No. 145); and
- AICPA Ethics Interpretation, Information System Services (ET sec.1.295.145).

The following standards **have not** been fully incorporated but are discussed in practice alerts:

- SAS No. 146, *Quality Management for an Engagement Conducted in Accordance with Generally Accepted Auditing Standards* (effective December 15, 2025);
- SQMS No. 1, *A Firm's System of Quality Management* (effective December 15, 2025); and
- SQMS No. 2, *Engagement Quality Reviews* (effective December 15, 2025).

Users of this content should consider guidance issued subsequent to these items to determine their effect on engagements conducted using this product.

## RELATED, FOUNDATIONS AND ASSOCIATION WORKPAPERS FOR THIS TITLE

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles.

Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related. Making this association allows Knowledge Coach information to flow properly between workpapers.
