Welcome to 2023 Knowledge-Based Examinations of Service Organizations for Knowledge Coach

This bulletin provides important information about the 2023 release of Knowledge-Based Examinations of Service Organizations. Please review this bulletin carefully. If you have any questions, additional information is available on CCH [Support Online](#).

Information about the Title

This title is designed to help the practitioner efficiently and effectively conduct examination engagements of service organizations in accordance with applicable standards issued by the American Institute of Certified Public Accountants (AICPA). The knowledge-based methodology for service organization engagements is a risk-based methodology for conducting examination engagements of service organizations. It emphasizes using knowledge of the entity, subject matter, and criteria to make the risk assessments and recommendations in connection with an engagement. The more accurately a practitioner assesses risks of material misstatement or deviation, the more assurance the practitioner has that the procedures performed in response to the risk assessments will detect material misstatements or deviations.

Examination of Service Organizations are often unique and complex, and require specialized accounting, and attestation knowledge. Conducting Examination of Service Organizations requires the exercise of the practitioner's professional judgment. This edition includes specific, up-to-date guidance for Examination of Service Organizations and is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version.

This document is published for the purpose of communicating the updates and enhancements included in the current version to users of the toolset. This document is not, and should not be used as, an audit program to update the audit documentation of an engagement started in a previous version of this product. The 2023 title includes CCH® Accounting Research® material links to specific guidance, providing instant access to detailed analysis related to the steps and processes discussed in the workpapers.

Caution! SSAE No. 21 is effective for practitioners' assertion-based examination reports dated on or after June 15, 2022. Practitioners who have not implemented the provisions of SSAE No. 21 should continue to use the 2021 title, released on 2/18/2021.
