New in this Release

Knowledge-Based Preparations, Compilations and Reviews of Dealerships

This title can be installed on CCH[®] ProSystem *fx*[®] Engagement v2018 by first installing the CCH ProSystem *fx* Engagement v2018.2.4 Update for Knowledge Coach. The latest update can be downloaded [here](#). This update will allow users to use the 2020 content without installing ProSystem *fx* Engagement v2019 until your firm plans to update.

The title is designed to help the auditor efficiently and effectively perform financial statement audits, and, when applicable, audits of internal control over financial reporting of dealerships in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). It also provides guidance for preparations, compilations, and reviews of dealerships in accordance with Statements on Standards for Accounting and Review Services (SSARSs) issued by the American Institute of Public Accountants (AICPA).

The Knowledge-Based Preparations, Compilations and Reviews of Dealerships methodology emphasizes using knowledge of the entity to perform preparation, compilation, and review engagements by facilitating the flow of information so that the understanding obtained in each process affects the decisions made in the next. Although the accountant will likely perform most steps in this methodology sequentially, conducting an engagement is not necessarily a linear process. Knowledge gained from preliminary engagement activities helps the accountant design and customize engagement procedures; evidence gained from procedures performed is evaluated, and the appropriate accountant's report, if any, is issued. This edition includes specific up-to-date guidance for conducting preparation, compilation, and review engagements in accordance with the SSARS.

This document is published for the purpose of communicating the updates and enhancements included in the current version to users of the toolset. This document is not, and should not be used as, a program to update the documentation of an engagement started in a previous version of this product.

If you are updating from a previous version of this title, refer to the *Knowledge Coach User Guide*, Chapter 12. The guide is found on the Engagement File Room Help menu.

The 2020 documents include CCH[®] Accounting Research[®] material links to specific guidance and detailed analysis related to the steps and processes discussed in the workpapers.

Additional Information on Knowledge Coach and the KBA Methodology

The Knowledge-Based (KBA) methodology allows the results of one set of procedures to become the input for the next. The key components of the KBA methodology include:

- An overview that guides accountants through the methodology;
- Knowledge-Based Preparation, Compilation and Review of Dealerships documents, integral to the risk assessment and overall accounting processes, which contain steps and procedures required by SSARS;
- Customizable programs that take accountants through related steps and procedures;

- Practice aids to help accountants complete steps or processes outlined in the Knowledge-Based Preparation, Compilation and Review of Dealerships documents and programs;
- Accountant’s reports that provide a variety of sample accountant’s opinions on financial statements; and
- Correspondence documents that provide sample letters to be used to comply with SSARS requirements and in many other common situations.
- The AICPA’s Accounting and Review Services Committee (ARSC) SSARS standards are the basis for the practice aids and tools in the 2020 Knowledge-Based Preparations, Compilations and Reviews of Dealerships. These assist accountants by:
 - Facilitating compliance with SSARS;
 - Encouraging more effective engagements through tailored engagement programs and comprehensive practice aids; and
 - Enhancing engagement documentation.

CCH® ProSystem fx® Knowledge Coach

Knowledge Coach functionality allows accountants to use the Knowledge-Based methodology more efficiently by eliminating the need for duplicate entry of the same information, tailoring documentation to each particular engagement, and documenting the link between risks identified and procedures performed. PRP-100 Engagement-Level Tailoring Questions, CMP-100 Engagement-Level Tailoring Questions, and REV-100 Engagement-Level Tailoring Questions are documents in Knowledge Coach that present engagement-level questions designed to aid in tailoring the engagement documentation to fit each client. Completing the questions helps the accountant avoid duplication and unnecessary workpapers.

Note: Before you begin your engagement, please review the guidance in PRP-101 Overall Preparation Program, CMP-101 Overall Compilation Program, or REV-101 Overall Review Program. These workpapers are intended to be your road map through a Knowledge-Based methodology. You should start your engagement with PRP-100 Tailoring Question Workpaper, CMP-100 Tailoring Question Workpaper, or REV-100 Tailoring Question Workpaper, as well as PRP-101 Overall Preparation Program, CMP-101 Overall Compilation Program, or REV-101 Overall Review.

- **Risks** can be captured via the Risk Summary task pane from any Knowledge Coach workpaper by the current editor of KBA-502 Summary of Risk Assessments. This allows you to continuously assess risks during the engagement. Several workpapers prompt you to consider the presence of risks, but the Risk Summary task pane must be used to document those risks. All documented risks flow to the Risk Summary. To ensure risks show in findings tables, select the *workpaper identified in* field of the Risk pane.
- **Information Flow** helps reduce the time spent duplicating information across forms. In addition, the flow of consistent information ensures that information and updates to information are not missed between workpapers. Drill-down functionality helps the user navigate quickly to the source of the information, aiding in the review of the audit file.
- **Diagnostics** help track unresolved issues like unanswered questions, incomplete risks, program steps not linked to risks or relevant assertions, missing workpapers, and more.
- **Links to Accounting Research Manager (ARM)**, if you subscribe to an ARM library that includes audit content, point directly to source material from Resources within Knowledge Coach workpapers. These links have been updated to reference the accounting standards under the FASB Accounting Standards Codifications and the auditing standards issued by the AICPA. Also, if you subscribe to the Knowledge-Based Audits of Dealerships Guide on ARM, you can take advantage of links to the audit guide material from within the Knowledge Coach documents.
- **Interpretive Guidance** is integrated in each Knowledge Coach template through the Tips view of each new task pane. Informational features include Practice Points, Examples, Optional Workpapers, and Resources to help auditors work more effectively and efficiently. You can also navigate from Resources within a document or the tip pane directly to CCH Accounting Research Manager and industry audit guides by simply clicking on the reference.
